About me

As an experienced tester, I serve as a **Technical Supervisor** in a project focused on API test automation, utilizing tools such as **Postman** and **Docker**. My passion for technology and desire for continuous growth led me to pursue studies in "Web Application Programming", where I had the opportunity to delve into modern frontend technologies such as **React**, **Angular**, **Next.js**, and **Nuxt.js**. I am characterized by my ability to work effectively both in a team and independently. I thrive on challenges that expand my skill set and contribute to high-quality software solutions.

Professional Experience

Senior Software Tester, *IAI S.A.* 09/2021 – present
Szczecin

- Designing and maintaining detailed test scenarios and technical documentation.
- Serving as a Technical Supervisor in an API test automation project using Postman.
- Writing automated tests in Cypress.
- Testing web, desktop, and API applications.
- Ensuring software quality by implementing automated and manual testing strategies in an e-commerce SaaS environment.
- Executing and analyzing SQL queries to validate data integrity.
- Testing integrations with external services (Amazon, Allegro, eBay).

Customer Service Technical Support, *Home.pl* 03/2021 – 08/2021
Szczecin

- Providing technical support to clients in the configuration of hosting, domains, and SSL.
- Effectively communicating technical solutions to clients, ensuring a seamless customer experience.
- Verifying mail logs to identify and resolve related issues.
